

Community Open House on Flood Resiliency

The Two Rivers-Ottauquechee Regional Commission, in partnership with the Vermont Department of Environmental Conservation, invites you to attend and participate in a community open house around local experiences with flooding.

The purpose of the open house is to better understand flooding effects and assist flood-affected towns in better managing floodplain development to reduce flood risk.

Share your unique experiences and insights on recent flooding events in your community

Learn the basics of flood risk and dynamics

Hear about work underway to reduce flood damage

Consider opportunities to make your community more flood resilient
